Sydney and Tripp

Jeff Chaffin Family

W4 Ranch Staff (l to r) Kash Hines,
Matt Jones and Jeff Chaffin

We would like to invite you to join us at the ranch on Saturday, April 15, 2023 for our annual spring sale starting at 12:30 pm. The cattle will be on display for viewing by Thursday morning or call us to come by earlier.

We saw a strong demand for our genetics last fall in our sale—even in severe drought conditions. Here we are six months out and we are receiving some moisture. The experts say the drought is receding and we can expect moisture. The industry experts are also saying that the stars are aligning for record calf prices and continued strong demand for beef, while the cattle inventory is at a historic 60-year low. It's going to take time to rebuild our numbers—creating a supply and demand issue that will favor cow calf producers.

Once again, we feel we have some of our best bulls to offer to you in this sale. We take great pride and allocate substantial resources to bring you high quality bulls. No matter the breed your cow herd is, we feel our bulls can work for you and your operation. Our offering is strong—80 bulls strong.

All of the females we are selling are first calf heifers with their whole production life ahead of them and they can put you in the driver's seat for the next few years. Ours have generations of production backing them and these are the kind you need to rebuild your herd with and produce the calves that could be the highest valued of your lifetime—if you listen to the experts.

We are also featuring four bulls—Lots 1, 2, 4, and 21 and ask that you pay considerable attention to the genetic value they offer.

Make plans to join us at 11:00 a.m. on sale day for lunch sponsored by Bar None Country Store, Mike Jones. The sale will begin promptly at 12:30 p.m.. If you can't be there in person, please get registered with Superior Livestock and join us online.

I want to personally thank the entire W4 crew and their families for their tireless dedication and drive to make the program work here at the ranch. We would also like to thank our customers for their continued support. Customer service and satisfaction is a core value for us, so let us know how we can help you!

Jeff Chaffin
Manager
254/396-2785

"We invite you to view our 2023 Spring production sale..."

The Offering

80 Two-Year-Old Bulls

30 Registered Hereford Heifers...

heavy bred to Registered Hereford Bulls for Spring Calves

75 Registered Hereford Heifers...

bred to Registered Hereford Bulls for Fall Calves

50 Registered Hereford Heifers...

bred to low birth weight Angus Bulls for Fall Calves

Sale will be broadcast live on SuperiorLivestock.com
See bidding information on page 51.

Schedule of Events

SATURDAY, APRIL 15, 2023

8:00 a.m. – Coffee, donuts and viewing of cattle

11:00 a.m. – Lunch served

12:30 p.m. – Spring Production Sale

Saturday, April 15, 2023

12:30 p.m. CST ... at the ranch, Morgan, Texas

Sale Location

W4 Ranch-Steele Creek Headquarters, located on FM 927 between Lakeside Village and Morgan in Bosque County, Texas or 4 miles east of Morgan from Hwy. 174.

Accommodations

Hillsboro, Texas, 29 miles from the ranch

Sale Headquarters: Ramada Inn

(254) 582-3493 or (877) 200-3392

Other lodging at

Comfort Inn, (254) 582-3338

Holiday Inn Express, (254) 582-0220

Also in Clifton, 20 miles from ranch

Best Western, (254) 675-8999

Air Travel

Dallas/Fort Worth Airport is serviced by most major airlines and is 90 miles from ranch. Waco Airport is located just 40 minutes from ranch. We have a private FAA approved airstrip located on the ranch that can accommodate most all private planes. W4 Ranch airstrip's new location identifier for the landing facility is 84TE.

A 75' wide x 4,500' long asphalt runway.

Call (254) 635-4444 for shuttle to sale barn.

Sale Day Phone

(254) 635-4444 – Phone bids welcomed

Terms of Sale

Terms of sale are CASH, to be paid in full at the conclusion of the sale. We will be glad to consider special terms if arrangements are made prior to the sale date. Contact Tom Johnson.

Sale Conditions

Each animal will be sold to the highest bidder with the auctioneer settling any disputes as to bids. Each animal will become the property of the buyer as soon as sold.

Guarantee

All cattle are guaranteed to be breeders; all females having been examined safe in calf will be considered as proven breeders. Any bull subsequently found to be a non-breeder may be returned in good condition and with our permission within six months of the sale date. We reserve the right to try any reported non-breeder for six months and if we cannot confirm the animal as a breeder will refund the purchase price.

Herd Health

Individual health certificates for interstate shipment will be furnished on all sale cattle. All test-age cattle will have been tested negative for Brucellosis. All the cattle have been vaccinated for 7-Way Blackleg, Lepto and wormed. Mark Jackson, DVM serves as our herd veterinarian.

EPDs

EPDs in this catalog were obtained on March 7, 2023.

Note

All persons attending the sale do so at their own risk. W4 Ranch nor any person connected with the sale assumes liability, legal or otherwise, for any accidents which may occur.

WHY IS THE PURINA® ACCURATION® AND PURINA® WIND & RAIN® MINERAL THE RIGHT FIT FOR MY OPERATION?

One size doesn't fit all, especially in the cattle world.

That's why Purina® Accuration® and Purina® Wind & Rain® Mineral provide cow/calf producers flexibility to select from high-quality nutrition options to create a whole herd nutrition program that best fits their needs. Purina® is the foundation for success with elite, complete nutrition programs. Producers can also choose to enter additional value-added programs that are amplified by the research-based and time-tested approach of Purina Animal Nutrition®.

WORK WITH BAR NONE COUNTRY STORE TO CREATE A TAILORED PLAN TO MEET YOUR OPERATION'S GOALS.

The Hill

The Feedlot

Bull Development

Our Bull Development Center is 100 acres that is divided into five paddocks with a 200 feet tall rock hill in the center.

After preconditioning, these bulls are divided by age groups and walked to the paddocks.

On one side of the hill is their water and on the opposite side, their feed source.

The distance is a half mile each way and requires climbing the rock hill. This procedure strengthens hocks and feet as well as builds muscle.

Bulls raised in this environment will work anywhere and gain as they are working.

- ✓ Bulls weaned, vaccinated and wormed at 205 days.
- ✓ Bulls conditioned on starter ration for 21 days and then transitioned to a high roughage ration for the remainder of the feed period.
- ✓ Bulls raised on high roughage ration.
- ✓ Bulls weaning and yearling weights are adjusted.

*"Our bulls
will work
anywhere and
gain as they
are working..."*

Performance & Carcass

EPD Information

Calving Ease – Direct (CE)

CE EPD is based on calving ease scores and birth weights and is measured on a percentage. CE EPD indicates the influence of the sire on calving ease in females calving at 2 years of age. For example, if sire A has a CE EPD of 6 and sire B has a CE EPD of -2, then you would expect on average if comparably mated, sire A's calves would be born with an 8% more likely chance of being unassisted when compared to sire B's calves.

Birth Weight (BW)

BW EPD is an indicator trait for calving ease and is measured in pounds. For example, if sire A has a BW EPD of 3.6 and sire B has a BW EPD of 0.6, then you would expect on average if comparably mated, sire A's calves would come 3 lb. heavier at birth when compared to sire B's calves. Larger BW EPDs usually, but not always, indicate more calving difficulty. The figure in parentheses found after each EPD is an accuracy value or reliability of the EPD.

Weaning Weight (WW)

WW EPD is an estimate of pre-weaning growth that is measured in pounds. For example, if sire A has a WW EPD of 60 and sire B has a WW EPD of 40, then you would expect on average if comparably mated, sire A's calves would weigh 20 lb. heavier at weaning when compared to sire B's calves.

Yearling Weight (YW)

YW EPD is an estimate of post-weaning growth that is measured in pounds. For example, if sire A has a YW EPD of 100 and sire B has a YW EPD of 70, then you would expect on average if comparably mated, sire A's calves would weigh 30 lb. heavier at a year of age when compared to sire B's calves.

Scrotal Circumference (YSC)

Measured in centimeters and adjusted to 365 days of age, SC EPD is the best estimate of fertility. It is related to the bull's own semen quantity and quality, and is also associated with age at puberty of sons and daughters. Larger SC EPDs suggest younger age at puberty. Yearling sons of a sire with a .7 SC EPD should have yearling scrotal circumference measurements that average 0.7 centimeters (cm) larger than progeny by a bull with an EPD of 0.0 cm. In the Hereford genetic analysis, a multiple-trait model was used for scrotal circumference. Weaning weight was used as a predictor variable to increase the prediction accuracy of SC EPDs. Therefore, an animal with a weaning weight EPD should also have a SC EPD.

Maternal Milk (MM)

The milking ability of a sire's daughters is expressed in pounds of calf weaned. It predicts the difference in average weaning weights of sires' daughters' progeny due to milking ability. Daughters of the sire with a +14 MM EPD should produce progeny with 205-day weights averaging 24 lb. more (as a result of greater milk production) than daughters of a bull with a MM EPD of -10 lb. (14 minus -10.0 = 24 lb.). This difference in weaning weight is due to total milk production during the entire lactation.

Teat Size (TEAT)

Scores range from 9 (very small) to 1 (very large, balloon shaped) and are subjective assessments of the teat length and circumference. Oversized teats are difficult for newborn calves to nurse, and the calf may not receive adequate colostrum. This could lead to a higher incidence of scours or decreased immunity levels in the newborn calf.

TEAT EPDs are reported on the scoring scale. Differences in sire EPDs predict the difference expected in the sires' daughters' udder characteristics when managed in the same environment. For example, if sire A has a teat size EPD of 0.4, and sire B has a teat size EPD of -0.1, the difference in the values is 0.5, or one-half of a score. If daughters of sires A and B are raised and managed in the same environment, you would expect half a score smaller teat size in daughters of sire A, compared to sire B.

Ribeye Area (REA)

REA EPDs reflect differences in an adjusted 365-day ribeye area measurement based on carcass measurements of harvested cattle. Sires with relatively higher REA EPDs are expected to produce better-muscled and higher percentage yielding slaughter progeny than will sires with lower REA EPDs. Ultrasound measurements are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

Marbling (MARB)

MARB EPDs reflect differences in an adjusted 365-day marbling score (intramuscular fat, [IMF]) based on carcass measurements of harvested cattle. Breeding cattle with higher MARB EPDs should produce slaughter progeny with a higher degree of IMF and therefore higher quality grades. Ultrasound measurements are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

Baldy Maternal Index (BMIS)

The Baldy Maternal Index is a maternally focused index that is based on a production system that uses Hereford x Angus cross cows. Progeny of these cows are directed towards Certified Hereford Beef. This index has significant weight on Sustained Cow Fertility, which predicts fertility and longevity of females. There is a slightly positive weight on Weaning Weight, Mature Cow Weight and Milk which accounts for enough growth but ensures females do not increase inputs. There is some negative emphasis on Dry Matter Intake, but a positive weighting on Carcass Weight which is anticipated to provide profitability from finishing of non-replacement females and castrated males. Marbling and Rib-eye Area are also positively weighted to keep the harvested progeny successful for CHB. This index is geared to identify Hereford bulls that will be profitable when used in a rotational cross with mature commercial Angus cows.

Brahman Influence Index (BIIS)

The Brahman Influence Index is a maternally focused index that is based on a production system that uses Brahman x Hereford cross cows. Progeny of these cows are directed towards a commodity beef market since Certified Hereford Beef does not accept Brahman influenced cattle. This index has significant weight on Sustained Cow Fertility, which predicts fertility and longevity of females. There is a slightly positive weight on Weaning Weight, Mature Cow Weight and Milk which accounts for enough growth but ensures females do not increase inputs. There is some negative emphasis on Dry Matter Intake, but a positive weighting on Carcass Weight which is anticipated to provide profitability in finishing non-replacement females and castrated males. Marbling and Rib-eye Area are also positively weighted to keep harvested progeny successful for a variety of commodity based programs. This index targets producers that use Hereford bulls on Brahman influenced cows.

Certified Hereford Beef Index (CHBS)

The Certified Hereford Beef Index is a terminal sire index that is built on a production system where Hereford bulls are mated to mature commercial Angus cows where all progeny will be targeted for Certified Hereford Beef after the finishing phase. This index has significant weight on Carcass Weight and Marbling to ensure profit on the rail. As well there is a positive weighting for Average Daily Gain along with a negative weighting on Dry Matter Intake to ensure efficient pounds of growth in the finishing phase. In addition, there is a positive weighting for Rib-eye Area and a negative weighting for Back Fat to maintain desirable Yield Grades. This is the only index that has no emphasis on fertility. Remember that no replacement heifers are being retained.

This CL 1 Domino 776 son is a powerful, fully pigmented calving ease bull out of our 5358 donor! If you are searching for a short haired bull with great look and pedigree you need to come take a look. His donor dam, 5358 has done us a great job and she has a fantastic front end profile and tremendous udder quality. Whether you are raising replacement cattle or feeder cattle 104J checks a lot of boxes!

W4 would like to retain 1/4 semen interest and have the bull collected at our expense in the future.

Lot 2 is in this sale because we kept a full brother last year and Wow has he exceeded our expectations. The calves out of his full brother are stout, short marked with tremendous bone. His donor dam 5131 has been a standout donor for us and Churchill Cattle. She is the grandam of the popular Genex sire Churchill W4 Roughneck. 105J offers a great pedigree and awesome carcass genetics. He ranks in the top 4% in CHB\$ and CW.

Lot 4 | W4 36E LONG HAUL J029

Sire of Lot 4 | NJW LONG HAUL 36E ET

Heterozygous polled Long Haul son with great EPDs across the board. Big BW to YW spread and 12 EPD traits in the top 10% breed. This yellow bull would really work well on Brahman cows to produce F-1 females and make the steers great feeding cattle!

How To Participate *as an absentee buyer*

VIEWING THE AUCTION

The auction will be broadcast online at Bid.SuperiorLivestock.com and the pre-recorded videos will also be hosted there. You do not need an account just to watch the auction or view videos of the sale offering.

ONLINE BIDDING

Go to Bid.SuperiorLivestock.com for Superior's new online bidding platform. If you have not registered there before you will need to create an account. The first time you register an account you will receive a confirmation e-mail that you must click on. Once you have completed this, select the auction you would like to bid on and click the "Request a Buyer Number" button. The first time you request a buyer number you will be sent a confirmation code via text. Enter that code in the login portal and you will receive a buyer number. This 2-step verification process will only have to be done once and in the future you will be able to simply login and request a buyer number and receive it instantly for any auction. Once you have successfully registered and received a buyer number it will show your name and buyer number on both the video preview page and the online bidding page when you are logged in. If you have an account at LiveAuctions.tv you may skip the registration process and use those login credentials to request a buyer number as LiveAuctions is a division of Superior Livestock. For more details on registering an account and also how to bid, you may watch a tutorial at Bid.SuperiorLivestock.com/how-it-works.

TURN IN BIDS OVER THE PHONE

This is Superior's traditional method of buying cattle and is the suggested process for anybody who does not have consistent, high-speed internet. You still must register an account at Bid.SuperiorLivestock.com and request a buyer number. Once you receive a buyer number you will see the bid line phone number. Just watch the auction online and call in at least 2 lots ahead of the lot you are looking to bid on. A Superior Livestock representative will be with you on the phone and will assist you in placing bids.

**FOR HELP WITH REGISTRATION OR ANY PART OF THE BIDDING PROCESS PLEASE CALL
SUPERIOR AT (800) 422-2117.**

WHOA.

MORE POUNDS. MORE CALVES. MORE PROFIT.

Herefords are known as the efficiency experts for a reason.

Herefords boost pregnancy rates by 7% and add \$30 per head in feedyard profitability in a crossbreeding system.

And Hereford genetics bring unrivaled hybrid vigor, longevity and disposition.

COME HOME TO HEREFORD.

Hereford.org | 816-842-3757

Take advantage of hybrid vigor by capitalizing on Hereford genetics.

The Maternal Advantage program generates females with added longevity, more docility, increased fertility and more profit per year.

Can be utilized by producers using Hereford bulls on British-based cows or Brahman-based cows in their breeding program.

Producers utilizing the program will have access to a sire EPD summary, added market exposure, replacement selection tools, genetic improvement tools and access to AHA resources, marketing and staff.

Qualifications

- Producers must verify that eligible females are sired by registered Hereford bulls with transferred ownership.
- Participating bull batteries must rank in the top 50% of the breed for Baldy Maternal Index (BMI\$) if used on British-based cows or the top 50% of the breed for Brahman Influence Index (BII\$) if used on Brahman-based cows.
