Jeff Chaffin Family

W4 Ranch Staff (l to r) Kash Hines,
Matt Jones and Jeff Chaffin

We hope you can join us on Saturday, April 16 at 11:00 a.m. for our annual spring production sale.

We feel this is the strongest set of bulls we have offered our customers and buyers. From top to bottom, these bulls show that extra muscle, bone, and dimension that is needed in today's market. Regardless of what breed your cow herd is we feel we are producing bulls that can help you reach your goals for your individual operation.

Back in 2018, we added a Cooper Hereford bull, CL 1 Domino 7195E, to our program. This bull went right to work, building and improving our program. Unfortunately, we lost this great bull in the summer of 2020. His last calf crop left us a tremendous set of bulls and females. Several of the best sons are highlighted in this sale. We feel these sons of 7195 and all of the other bulls sired by our herd bull battery are the kind that can take your operation to the next level.

In addition to 94 bulls, we are selling 20 spring calving heifers with calves at side; these will be sold individually. The fall calving heifers, 60 bred to Hereford bulls; 40 bred to Angus bulls, will all be sold in groups. This a tremendous set of females that will make great additions to anyone's cow herd.

Please join us on Saturday, April 16, for lunch at 11:00 a.m. sponsored by Bar None Country Store, Mike Jones. The sale will begin promptly at 12:30 p.m. If you are unable to join us in person that day, the auction will be broadcast live on Superior Click to Bid.

I want to say THANK YOU to the entire crew here at W4 Ranch. Their dedication, passion, and drive are what makes our operation go. We are blessed to live and work in this industry. We would also like to thank all our customers and friends who have supported our operation. Customer service and satisfaction are very important to us, so if you have any questions, please contact us.

Sincerely,
Jeff Chaffin
(254) 396-2785

W4
Home of bulls
bred to work!

"We invite you to view our 2022 spring production sale..."

THE OFFERING

70 Two-Year-Old Bulls

20 18-Month-Old Bulls

5 Two-Year-Old Polled Bulls

15 Registered Hereford Heifers... heavy bred to Registered Hereford Bulls for Spring Calves

5 Registered Hereford Heifers... heavy bred to Registered Angus Bulls for Spring Calves

60 Registered Hereford Heifers... bred to Registered Hereford Bulls for Fall Calves

40 Registered Hereford Heifers...bred to Registered Angus Bulls for Fall Calves

Sale will be broadcast live on SuperiorClickToBid.com and SuperiorLivestock.com

See bidding information on page 43.

Schedule of Events

SATURDAY, APRIL 16, 2022

8:00 a.m. – Coffee, donuts and viewing of cattle

11:00 a.m. – Lunch served

12:30 p.m. – Spring Production Sale

SATURDAY, APRIL 16, 2022

12:30 p.m. CST ... at the ranch, Morgan, Texas

Sale Location

W4 Ranch-Steele Creek Headquarters, located on FM 927 between Lakeside Village and Morgan in Bosque County, Texas or 4 miles east of Morgan from Hwy. 174.

Accommodations

Hillsboro, Texas, 29 miles from the ranch

Sale Headquarters: Ramada Inn

(254) 582-3493 or (877) 200-3392

Other lodging at

Comfort Inn, (254) 582-3338

Holiday Inn Express, (254) 582-0220

Also in Clifton, 20 miles from ranch

Best Western, (254) 675-8999

Air Travel

Dallas/Fort Worth Airport is serviced by most major airlines and is 90 miles from ranch. Waco Airport is located just 40 minutes from ranch. We have a private FAA approved airstrip located on the ranch that can accommodate most all private planes. W4 Ranch airstrip's new location identifier for the landing facility is 84TE.

A 75' wide x 4,500' long asphalt runway.

Call (254) 635-4444 for shuttle to sale barn.

Sale Day Phone

(254) 635-4444 – Phone bids welcomed

Terms of Sale

Terms of sale are CASH, to be paid in full at the conclusion of the sale. We will be glad to consider special terms if arrangements are made prior to the sale date. Contact Tom Johnson.

Sale Conditions

Each animal will be sold to the highest bidder with the auctioneer settling any disputes as to bids. Each animal will become the property of the buyer as soon as sold.

Guarantee

All cattle are guaranteed to be breeders; all females having been examined safe in calf will be considered as proven breeders. Any bull subsequently found to be a non-breeder may be returned in good condition and with our permission within six months of the sale date. We reserve the right to try any reported non-breeder for six months and if we cannot confirm the animal as a breeder will refund the purchase price.

Herd Health

Individual health certificates for interstate shipment will be furnished on all sale cattle. All test-age cattle will have been tested negative for Brucellosis. All the cattle have been vaccinated for 7-Way Blackleg, Lepto and wormed. Mark Jackson, DVM serves as our herd veterinarian.

EPDs

EPDs in this catalog were obtained on March 1, 2022.

Note

All persons attending the sale do so at their own risk.

W4 Ranch nor any person connected with the sale assumes liability, legal or otherwise, for any accidents which may occur.

Stand out with Proven Genetics

THE HEREFORD ADVANTAGE PROGRAM

Increase added market power and brand recognition with feeder cattle sired by a Hereford bull battery ranking in the top 50% for CHB\$ index.

PROGRAM BENEFITS:

- ✓ EPD ranking summary
- ✓ Added market exposure
- ✓ Genetic improvement tool
- ✓ Access to AHA resources
- ✓ Get started at HerefordFeederCattle.com

“The Hereford Advantage program helps us to focus on providing the best quality genetics that we can possibly provide to our customers - the cattle feeder. We try to select bulls who will sire calves that will excel in the feed yard.”

-NANCY BOWLING

BOWLING RANCH, NEWKIRK, OKLA.

Certified Hereford Beef Index(CHB\$) is a terminal sire index that is built on a production system where Hereford bulls are used on Angus-based cows with a focus on feedlot performance and end-product merit. To qualify for the Hereford Advantage program, cattle must be sired by registered Hereford bulls with transferred ownership, and the Hereford bull battery must have a CHB\$ value ranking in the top 50%.

The Hill

The Feedlot

*"Our bulls
 will work
 anywhere and
 gain as they
 are working..."*

"Our bulls can work anywhere..."

Our Bull Development Center is 100 acres that is divided into five paddocks with a 200 feet tall rock hill in the center.

After preconditioning, these bulls are divided by age groups and walked to the paddocks.

On one side of the hill is their water and on the opposite side, their feed source.

The distance is a half mile each way and requires climbing the rock hill. This procedure strengthens hocks and feet as well as builds muscle.

Bulls raised in this environment will work anywhere and gain as they are working.

- ✓ Bulls weaned, vaccinated and wormed at 205 days.
- ✓ Bulls conditioned on starter ration for 21 days and then transitioned to a high roughage ration for the remainder of the feed period.
- ✓ Bulls raised on high roughage ration.
- ✓ Bulls weaning and yearling weights are adjusted.

PERFORMANCE & CARCASS

EPD Information

Calving Ease – Direct (CE)

CE EPD is based on calving ease scores and birth weights and is measured on a percentage. CE EPD indicates the influence of the sire on calving ease in females calving at 2 years of age. For example, if sire A has a CE EPD of 6 and sire B has a CE EPD of -2, then you would expect on average if comparably mated, sire A's calves would be born with an 8% more likely chance of being unassisted when compared to sire B's calves.

Birth Weight (BW)

BW EPD is an indicator trait for calving ease and is measured in pounds. For example, if sire A has a BW EPD of 3.6 and sire B has a BW EPD of 0.6, then you would expect on average if comparably mated, sire A's calves would come 3 lb. heavier at birth when compared to sire B's calves. Larger BW EPDs usually, but not always, indicate more calving difficulty. The figure in parentheses found after each EPD is an accuracy value or reliability of the EPD.

Weaning Weight (WW)

WW EPD is an estimate of pre-weaning growth that is measured in pounds. For example, if sire A has a WW EPD of 60 and sire B has a WW EPD of 40, then you would expect on average if comparably mated, sire A's calves would weigh 20 lb. heavier at weaning when compared to sire B's calves.

Yearling Weight (YW)

YW EPD is an estimate of post-weaning growth that is measured in pounds. For example, if sire A has a YW EPD of 100 and sire B has a YW EPD of 70, then you would expect on average if comparably mated, sire A's calves would weigh 30 lb. heavier at a year of age when compared to sire B's calves.

Scrotal Circumference (SC)

Measured in centimeters and adjusted to 365 days of age, SC EPD is the best estimate of fertility. It is related to the bull's own semen quantity and quality, and is also associated with age at puberty of sons and daughters. Larger SC EPDs suggest younger age at puberty. Yearling sons of a sire with a .7 SC EPD should have yearling scrotal circumference measurements that average 0.7 centimeters (cm) larger than progeny by a bull with an EPD of 0.0 cm. In the Hereford genetic analysis, a multiple-trait model was used for scrotal circumference. Weaning weight was used as a predictor variable to increase the prediction accuracy of SC EPDs. Therefore, an animal with a weaning weight EPD should also have a SC EPD.

Maternal Milk (MM)

The milking ability of a sire's daughters is expressed in pounds of calf weaned. It predicts the difference in average weaning weights of sire's daughters' progeny due to milking ability. Daughters of the sire with a +14 MM EPD should produce progeny with 205-day weights averaging 24 lb. more (as a result of greater milk production) than daughters of a bull with a MM EPD of -10 lb. (14 minus -10.0 = 24 lb.). This difference in weaning weight is due to total milk production during the entire lactation.

Teat Size (TEAT)

Scores range from 9 (very small) to 1 (very large, balloon shaped) and are subjective assessments of the teat length and circumference. Oversized teats are difficult for newborn calves to nurse, and the calf may not receive adequate colostrum. This could lead to a higher incidence of scours or decreased immunity levels in the newborn calf.

TEAT EPDs are reported on the scoring scale. Differences in sire EPDs predict the difference expected in the sire's daughters' udder characteristics when managed in the same environment. For example, if sire A has a teat size EPD of 0.4, and sire B has a teat size EPD of -0.1, the difference in the values is 0.5, or one-half of a score. If daughters of sires A and B are raised and managed in the same environment, you would expect half a score smaller teat size in daughters of sire A, compared to sire B.

Ribeye Area (REA)

REA EPDs reflect differences in an adjusted 365-day ribeye area measurement based on carcass measurements of harvested cattle. Sires with relatively higher REA EPDs are expected to produce better-muscled and higher percentage yielding slaughter progeny than will sires with lower REA EPDs. Ultrasound measurements are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

Marbling (MARB)

MARB EPDs reflect differences in an adjusted 365-day marbling score (intramuscular fat, IMF) based on carcass measurements of harvested cattle. Breeding cattle with higher MARB EPDs should produce slaughter progeny with a higher degree of IMF and therefore higher quality grades. Ultrasound measurements are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

Baldy Maternal Index (BMIS)

The Baldy Maternal Index is a maternally focused index that is based on a production system that uses Hereford x Angus cross cows. Progeny of these cows are directed towards Certified Hereford Beef. This index has significant weight on Sustained Cow Fertility, which predicts fertility and longevity of females. There is a slightly positive weight on Weaning Weight, Mature Cow Weight and Milk which accounts for enough growth but ensures females do not increase inputs. There is some negative emphasis on Dry Matter Intake, but a positive weighting on Carcass Weight which is anticipated to provide profitability from finishing of non-replacement females and castrated males. Marbling and Rib-eye Area are also positively weighted to keep the harvested progeny successful for CHB. This index is geared to identify Hereford bulls that will be profitable when used in a rotational cross with mature commercial Angus cows.

Brahman Influence Index (BIIS)

The Brahman Influence Index is a maternally focused index that is based on a production system that uses Brahman x Hereford cross cows. Progeny of these cows are directed towards a commodity beef market since Certified Hereford Beef does not accept Brahman influenced cattle. This index has significant weight on Sustained Cow Fertility, which predicts fertility and longevity of females. There is a slightly positive weight on Weaning Weight, Mature Cow Weight and Milk which accounts for enough growth but ensures females do not increase inputs. There is some negative emphasis on Dry Matter Intake, but a positive weighting on Carcass Weight which is anticipated to provide profitability in finishing non-replacement females and castrated males. Marbling and Rib-eye Area are also positively weighted to keep harvested progeny successful for a variety of commodity based programs. This index targets producers that use Hereford bulls on Brahman influenced cows.

Certified Hereford Beef Index (CHBS)

The Certified Hereford Beef Index is a terminal sire index that is built on a production system where Hereford bulls are mated to mature commercial Angus cows where all progeny will be targeted for Certified Hereford Beef after the finishing phase. This index has significant weight on Carcass Weight and Marbling to ensure profit on the rail. As well there is a positive weighting for Average Daily Gain along with a negative weighting on Dry Matter Intake to ensure efficient pounds of growth in the finishing phase. In addition, there is a positive weighting for Rib-eye Area and a negative weighting for Back Fat to maintain desirable Yield Grades. This is the only index that has no emphasis on fertility. Remember that no replacement heifers are being retained.

310 is sired by the 88X bull, who is siring some of the most sought-after cattle in the industry today. He was added to our herd bull lineup for his structural correctness and powerful makeup. His sons and daughters will benefit from his EPD profile. He is truly a "spread" bull from BW to YW with added milk and carcass traits.

Notes...

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number." Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding platform for cattle buying. *Please note that high speed internet is required – this is not for dial-up or satellite internet.* Registration is free, but you must become a member of www.superiorlivestock.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. There are 2 places to view the sale broadcast live on the internet: www.superiorlivestock.com or www.superiorclicktobid.com. Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to www.superiorlivestock.com, but if you want to bid over the computer you must go to www.superiorclicktobid.com. Remember you can call in to bid on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid." Your computer must have Flash Media Player installed for this website to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

**If you plan to bid by phone through Superior Livestock or 'Click-to-Bid,' you must register at www.superiorlivestock.com prior to bidding.*

Buyers will be contacted by the ranch after the sale for payment and delivery details.

**IF YOU NEED ANY ASSISTANCE
CALL SUPERIOR AT (800) 422-2117.**
